Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE Patents and Designs

Calcutta, the 29th October 1955

Special Notice

There will be no notifications on 5th November 1955.

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

13th October 1955

- 55603. British Insulated Callender's Cables Limited. Improvements relating to sealing glands. (18th October 1954).
- 55604. British Insulated Callender's Cables Limited. Improvements relating to sealing glands. (18th October 1954).
- 55605. British Telecommunications Research Limited. Improvements in or relating to telecommunication systems employing automatic gain regulators. (18th October 1954).
- 55606. D. Appert and S. Cailliot. Method of and apparatus for enabling a continuous magnetic tape or some other support in the form of a continuous band to be regularly driven inside a magazine charger.
- 55607. P. Miniati. Improved system for transhipping solid material in bulk from coast to a cargo vessel and vice versa.

14th October 1955

- 55608. The Indian Oxygen & Acetylene Company Limited. Improvements in or relating to vacuum insulated assemblies. (22nd October 1954).
- 55609. K. V. Haken and Fa. Erz-Redukt G.m.b.H. A process for reducing iron ores at low temperatures.

17th October 1955

- 55610. M. S. Wadke. Improvements in elastic chain bands, specially wrist watch bracelets.
- 55611. J. P. Durgani and K. V. Hariramani. Ritzzy collar straightener.
- 55612. International Research and Development Corporation. Improvements in or relating to process for refining of glyceride oils and fats.
- 55613. International Research and Development Corporation. Improvements in or relating to process for forming livestock feed and resulting product.
- 55614. International Research and Development Corporation. Improvements in or relating to process of separating components of oleaginous mixtures by fractional crystallization.
- 55615. Imperial Chemical Industries Limited. Improvements relating to titanium or titanium base alloys. (15th October 1954).
- 55616. Imperial Chemical Industries Limited. Improvements in or relating to the fabrication of titanium or titanium base alloys. (20th October 1954).

55617. American Cyanamid Company. Production and refining of quatrmycins.

55618. Commonwealth Scientific and Industrial Research Organization. Method and apparatus for extracting an adsorbable solute from a suspension of finely divided solids in a solution. (5th October 1954).

55619. Ashley Accessories Limited. Improvements in or relating to electric switches. (9th November 1954).

55620. E. K. Cole Limited. Improvements in or relating to crates for bottles. (26th October 1954).

55621. The Permutit Company Limited. Improvements relating to methods of and apparatus for bringing liquids into contact with granular materials. (20th October 1954).

55622. N. M. Elias. Pharmaceutical compositions.

18th October 1955

55623. Imperial Chemical Industries Limited. Colour photographic images. (22nd October 1954).

55624. Imperial Chemical Industries Limited. Improvements in arc melting furnaces. (15th June 1955).

55625. Union Carbide and Carbon Corporation. Pigmented styrene polymers. (23rd June 1955).

55626. Vereinigte Leichtmetall-Werke Gesellschaft Mit Beschränkter Haftung. Method of and apparatus for the continuous casting of metals.

55627. Air Reduction Company Incorporated. Welding of steel.

55628. Stamicarbon N. V. Process for recovering heavy hydrogen and heavy water.

55629. Joseph Bancroft and Sons Company. Apparatus for crimping yarn and the like. (14th September 1955).

55630. J. R. Geigy A.-G. Process for the production of derivatives of 3,5-dioxo-pyrazolidine.

55631. F. Ungerer (Dipl.-Ing.). Method and machine for manufacturing structural parts out of sheet metal, having a curvature which varies in longitudinal direction, e.g., roofs for railway cars.

55632. Ciba Limited. Process for dyeing cellulosic fabrics by the continuous method.

55633. Automatic Coal Cleaning Company Limited. Improvements in or relating to washer boxes for coal and other minerals. (15th July 1955).

55634. Societe Anonyme Usines Emile Henricot. Improvements in or relating to automatic coupling devices for railway vehicles.

55635. Ing. A. Maurer S. A. Improvements in or relating to the cooling of electrodes of an electric oven or furnace.

55636. Farbwerke Hoechst Aktiengesellschaft vormals meister Lucius & Bruning. Manufacture of monoazo-dyestuffs. (15th November 1954).

55637. Douglas Fraser and Sons Limited. Improvements in or relating to package-driving rollers for winding machines for yarn or the like. (19th October 1954).

55638. P. G. Rohland. Improvements in rope clamps undetachably pressed onto wire ropes and such like.

19th October 1955

55639. The General Electric Company Limited. Improvements in and relating to automatic telephone and like systems. (19th October 1954).

55640. Carter Products, Inc. Improved muscle relaxant composition.

55641. Road Machines (Drayton) Limited and W. M. Robb. Improvements in and connected with rail sections. [Addition to No. 49311.]

55642. Imperial Chemical Industries Limited. Process for the manufacture of water-soluble phthalocyanine derivatives. (22nd October 1954).

55643. Dunlop Rubber Company Limited. Improvements relating to the production of foam rubber. (28th January 1955).

55644. Bhardwaj Trading Company. Improvements in or relating to ballast for fluorescent tubes.

55645. J. Martin. Improvements in and relating to ejection seats for aircraft.

55646. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to high-frequency multi-channel generator.

55647. The Permutit Company Limited. Improvements relating to methods of and apparatus for bringing liquids into contact with granular materials. (20th October 1954).

55648. H. Mc. C. Welr. Production of chemicals at temperatures engendered by electric arcs.

55649. T. Zan. Improvements in or relating to perforated separators of the kind used in rice mills.

55650. Ciba Limited. A new 1:3:5-triazine compounds and process for its manufacture.

55651. Fiat Societa Per Azioni. Front floor structure for chassisless motor vehicles.

Alteration of date

52574. The claim to priority date 24th August 1953 has been abandoned and the application dated as of 19th August 1954, the date of filing in India.

55553. Ante-dated to 22nd January 1954, under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

51085. Ocrietfabriek N. V. Improvements in or relating to bath, sink, combined-bath and sink or like device Accepted on 18th October 1955.

Bath or sink, when used as washing machine fitted with water agitating or pulsating device having a shaft extending through discharge opening or additional opening and driven by shaft of electric motor supported from bottom of bath or sink, outside it.

51104. Saladin & Co. Process and devices for applying substances to carriers with the aid of an electric field. Accepted on 19th October 1955.

Particles of substance to be applied enclosed in hollow electrically conducting container and delivered therefrom mechanically and/or pneumatically through apertures in container into electric field maintained between carrier and container.

51116. Standard Telephones and Cables Limited. Improvements in or relating to the storage of intelligence. (23rd January 1953). Accepted on 19th October 1955.

Comprises a number of stores and user equipments and means for allowing in turn any desired number of free stores.

51732. S. Takakita. Plough. Accepted on 19th October 1955.

Having its upper portion bent forwards so that its centre of gravity is in lower portion.

51762. Continental Can Company Incorporated. Production of closure seals by partially curing, shaping, and completing the cure. Accepted on 17th October 1955.

Depositing a measured quantity of heat-transformable non-volatile material, heating it and then pressing it by a shaped plunger.

51763. Continental Can Company Incorporated. Production of closure seals by partially curing a cushion material, and thereafter shaping and completing the cure. Accepted on 17th October 1955.

Depositing a measured quantity of heat-transformable non-volatile material in a closure shell, heating it, pressing it by a shaped plunger into a contour of sealing.

51779. A. G. Heron. Improvements in or relating to flexible hoses. (5th May 1953). Accepted on 17th October 1955.

Associating with the hose is a conductor adapted to be connected to low voltage secondary side of a step-down transformer so that any desired wattage can be introduced into the conductor.

51970. P. M. Agerwala, R. Kant and D. F. D. Joshi. Improvements in and relating to register translators particularly for multi-exchange telephone systems. Accepted on 13th October 1955.

Switching means are included in the register translator operated in response to particular values.

52006. Societe D'Etudes Et De Participations Eau, Gaz, Electricite Energie, S. A. Improvements in free-piston machines including a pneumatic return-energy accumulator. Accepted on 14th October 1955.

Discharge aperture of pneumatic accumulator maintained closed during reciprocating movement of piston assembly and opened when such movement ceases.

52245. F. Wehrli. Improved method and device for the treatment of human blood or plasma. Accepted on 18th October 1955.

Oxygen or ozone is introduced into blood and foam film formed is irradiated with ultra-violet light.

52248. N. V. De Bataafsche Petroleum Maatschappij. Apparatus and process for bringing two or more phases into intimate contact with each other. Accepted on 17th October 1955.

A vertical rotatable shaft fitted in a housing, a series of rotor and stator discs fitted to said shaft and the inner of the housing, and a feed line leading tangentially into the housing.

52342. Champalal Gupta. Preparation of colloidal suspension suitable for use as blood plasma substitutes. Accepted on 14th October 1955.

Consisting polyvinyl pyrrolidone in normal saline solution adjusted to pH value 7.

52574. "Shell" Research Limited. Process for the manufacture or blending of lubricating oils. Accepted on 17th October 1955.
By adjusting one or more condition of the process of manufacture or blending to keep value of parameter of the work of adhesion of the oil produced on solid surface within predetermined desired limits.
52684. Y. Sumie. An improved fly comb box in the carding engine. Accepted on 14th October 1955.
Comprising a comb shaft, an eccentric wheel, a fulcrum lever, a crank arm connecting the said lever and comb shaft.
52801. Council of Scientific and Industrial Research. A process of preparing a modified gelatin suitable for for transfusion. Accepted on 14th October 1955.
By the regulated action of proteolytic enzymes on gelatin prepared from bones.
52859. Ateliers De La Motobecane. Improvements relating to hubs for wheels. (19th February 1954). Accepted on 14th October 1955.
One of the two spoke flanges is made removable from the hub permitting removal of decorative surrounding drum.
52862. Parke, Davis and Company. Process for the preparation of tertiary amino compounds. Accepted on 14th October 1955.
Reacting aromatic-aliphatic alcohol with lower aliphatic primary alcohol and alkylating the aminoalkyl ether so obtained.
52918. Ciba Limited. New triaryl-amino-triazines and process for their manufacture. (21st October 1953). Accepted on 17th October 1955.
A triazine compound containing exchangeable substituents such as halogen atoms is reacted with a diamine $H_2N-R-NH_2$, wherein R is an arylene radicals or two arylene radicals linked by a divalent organic residue.
52934. T. Hindmarch. Improved resilient mounting. (1st January 1954). Accepted on 17th October 1955.
Comprising two elements each constituted by one or more annular rings and resilient means between the rings.
52965. N. V. De Bataafsche Petroleum Maatschappij. Preparation of basic polyvalent metal salts of organic acids. Accepted on 13th October 1955.
Organic acid compound is reacted with a polyvalent metal carbonate which is formed in situ.
52975. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a method of preventing a record from being charged electro-statically. Accepted on 14th October 1955.
Anti-static means transferred to the record surface by periodical contact with them from parts of packing provided with anti-static means.
52980. Ruhrchemie Aktiengesellschaft and Lurgi Gesellschaft für Warmetechnik m.b.H. Improvements in the hydrogenation of carbon monoxide with shaped iron catalysts. Accepted on 13th October 1955.
Wherein the spherical catalyst granules are produced from the dust and undersized granules resulting as waste in the production of string shaped granules.
52981. Electric Furnace Products Company, Limited. Process for preparing an acid soluble manganese product from manganese-bearing materials. (23rd April 1954). Accepted on 18th October 1955.
Heating to obtain fused mass which is rapidly chilled.
53067. Chas. Pfizer, & Co., Inc. A process for the production of tetracycline by fermentation. Accepted on 17th October 1955.
By Cultivating a tetracycline producing strain of genus streptomyces in a nutrient medium under submerged aerobic conditions.
53099. J. Bolton and D. E. Hennessey. Improvements relating to the construction of space decks and components thereof. (12th November 1953). Accepted on 18th October 1955.
A planer compression member, a junction unit and a set of struts connected between the junction unit and the compression member.
53130. Schering A. G. Manufacture of esters of 17- α -hydroxy progesterone with a protracted gestational activity. Accepted on 13th October 1955.
17- α -hydroxy-progesterone is converted by known methods into an ester with an aliphatic carboxylic acid and of 4-7 carbon atoms.
53154. E. B. Nichols. Improved feed devices for fountain pens and the like. Accepted on 14th October 1955.
Combination of tubular-section and feed component embodying an inwardly-directed helically-grooved portion with an outwardly directed extension having lengthwise liquid and air flow grooves.
53254. British Insulated Callender's Cables Limited. Improved means for helically lapping a string or similar member on a wire or equivalent member. (8th December 1953). Accepted on 19th October 1955.
String drawn over a stationary smooth body of circular cross section concentric with the path of the wire and caused to slip over the wire.
53275. N. V. De Bataafsche Petroleum Maatschappij. Improved compositions containing biocidal substances. [Addition to No. 47654.]. Accepted on 13th October 1955.
Comprising 10-75 per cent of biocidal solid and filler, 10-50 per cent of water-immiscible liquid, 0.25-25 per cent of emulsifying agents and 10-40 per cent water.
53291. E.R.F. Maier. Device for improving the propelling and manoeuvrability of screw-propelled vessels. Accepted on 17th October 1955.
A bulb like part arranged in the extension of and behind the propeller the leading edge of the bulb overlapping the hub and extending upto the rear trailing edge of the propeller blades.
53294. Commercial Solvents Corporation. Improvements in or relating to new antibiotic and method of preparing the same. Accepted on 17th October 1955.
Cycloserine is produced by cultivating Streptomyces orchidaceous in an aqueous nutrient medium under submerged aerobic conditions.
53345. Kugelfischer Georg Schafer & Co. Spinning or twisting spindle. Accepted on 14th October 1955.
Providing mutually offset retaining means within the end portion of the whorl and on the periphery of the upper end of the spindle bearing housing.
53469. Nyby Bruks Aktiebolag. An arrangement for the parking of motor-cars. Accepted on 19th October 1955.
At least two of the three rows provided with conveying devices by means of which cars are laterally displaceable in the direction of rows and the rows are provided at their ends with conveying devices.
53533. Societe Des Usines Chimiques Rhone-Poulenc. New phenthiazine derivatives and processes for their preparation. (12th January 1954). Accepted on 14th October 1955.
Condensing a di (β -substituted-ethyl)-amine with a dialkylaminoalkyl phenthiazine.
53540. Daimler-Benz Aktiengesellschaft. Improvements relating to motor omnibuses. (10th December 1954). Accepted on 14th October 1955.
Power unit located along one endwall and substantially towards one side of the longitudinal axis.
53635. Ciba Limited. New monoazo dyestuffs and complex metal compounds thereof and process for making them. Accepted on 19th October 1955.
Diazotised 2-aminobenzene-1-carboxylic acid is coupled with 1-phenyl-3-methyl-5-pyrazolone.
53853. Borax Consolidated Limited. New crystalline sodium borates. [Addition to No. 50150]. Accepted on 13th October 1955.
Evaporating solution of sodium borate at above 177°C, the molar ratio of $Na_2O:B_2O_3$ in solution being 0.5.

53954. Internationella Siporex Aktiebolaget. Method of jointing roofs and framework consisting of light-weight concrete slabs. Accepted on 17th October 1955.

Wherein the adjacent light weight concrete slabs are inter connected by a number of sheet metal parts.

54060. The Goodyear Tire & Rubber Company. Valve stem for tubeless tire. Accepted on 19th October 1955.

Including a metal valve tube bonded to a rubber stem having a neck portion and a base portion inwardly of the neck portion and tapering inwardly therefrom.

54160. N. V. De Bataafsche Petroleum Maatschappij. Process for preparing reaction products of ethoxy-line condensates. Accepted on 13th October 1955.

Reacting ethoxyline condensate with curing agent in presence of monoaryl-2-alkene-1.

54274. Libbey-Owens-Ford Glass Company. Template cutting apparatus and method of cutting bent sheets or glass or the like. Accepted on 18th October 1955.

Comprising of means for supporting glass sheet, track template of same curvature as bent glass sheet, cutter unit with cutting tool mounted with means to enable the cutter traverse in any direction.

54275. Libbey-Owens-Ford Glass Company. Method and apparatus for bending glass sheets. Accepted on 18th October 1955.

Consists in supporting a glass sheet on a mold, passing it through high temperature region that includes a source of radiant heat, shading an area of sheet from radiant heat and varying the shaded area.

54276. Libbey-Owens-Ford Glass Company. Method and apparatus for bending glass. Accepted on 18th October 1955.

Bending mold with glass sheet supported on it is passed through a heating chamber and directing beams of radiant heat downwardly on the surface of the glass as it passes through.

54278. H. S. Sidhu. Improvements in or relating to check pessaries. Accepted on 14th October 1955.

Provided with corrugations at its open end.

54279. H. S. Sidhu. Improvements in or relating to check pessaries, Dutch pessaries or the like. Accepted on 14th October 1955.

Width of the ring in the direction of the axis of the pessary is greater than the radial thickness thereof.

54335. Farbenfabriken Bayer Aktiengesellschaft. Process for the production of 2-amino-5-imino-pyrrole-nines. (7th January 1955). Accepted on 13th October 1955.

By reacting one or more maleic dinitrile and/or one or more fumaric dinitriles with an alcohol and a dry hydrogen halide and treating the imino ether formed with ammonia.

54376. H. S. Sidhu. Combined teething ring and soother or pacifier for infants. Accepted on 14th October 1955.

Teething ring provided with coacting soother and a protecting ring.

54385. Rohm & Haas Company. Improvements in or relating to process of tanning, and tanning compositions. Accepted on 17th October 1955.

Treating the skin in an aqueous acid solution, containing suspended therein a pulverized double silicate of zirconium and an alkali metal.

54618. Maschinenfabrik Augsburg-Nurnberg A.G. Improvements in or relating to cooling devices for the pistons of internal combustion engines. Accepted on 14th October 1955.

Delivery of oil from the throwing device automatically prevented at the idling pressure of the oil pump.

55553. Standard Telephones and Cables Limited. Improvements in or relating to telegraph exchange systems. (23rd January 1953). [Divisional date, January 22, 1954]. Accepted on 19th October 1955.

Storage and retransmission of messages conducted by automatic extraction equipment which directs priority rating and an automatic testing equipment for selection of supervisory information.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

48898. 49071. 49482. 49488. 49492. 49575. 49777. 49778. 49819. 49830. 49840. 49909. 50086. 50138. 50525. 50651. 50733. 50934. 51230. 51309. 51463. 51515. 51603. 51659. 51680. 51733. 51744. 51753. 51765. 51771. 51826. 51833. 51860. 51939. 51945. 51946. 51961. 51976. 52090. 52136. 52159. 52180. 52256. 52287. 52294. 52302. 52316. 52327. 52394. 52404. 52409. 52441.

Patents Sealed

49930. 50089. 50487. 50646. 50652. 50654. 50656. 50658. 50703. 50714. 50725. 50866. 50885. 50951. 50952. 50953. 51055. 51382. 51488. 51539. 51651. 51991. 51995. 52103. 52545. 52573. 52645. 52772. 53109. 53192. 53405. 53411. 53564. 53591. 53773.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911 that Hobbs Transmission Limited, a British Company of Sydenham House, 78, Russell Terrace, Leamington Spa, England seek leave to amend the description in the specification in respect of patent application No. 50132. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Libbey Owens-Ford Glass Company, 608, Madison Avenue, Toledo, Ohio, United States of America, a Corporation of the State of Ohio, seek leave to amend the claims in the specification in respect of Patent application No. 53599. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

Renewal Fees Paid

22876. 23401. 23620. 23621. 24601. 24677. 24708. 25788. 25862. 26152. 26930. 27032. 27118. 30396. 30405. 30406. 30532. 30579. 30580. 31986. 33387. 33566. 33655. 33656. 33857. 34050. 35793. 35858. 35870. 36105. 36126. 36245. 36274. 36322. 36325. 36466. 36596. 36619. 36728. 37375. 37571. 38279. 38312. 38485. 38488. 38489. 38499. 38508. 38647. 38725. 38795. 38796. 38955. 39046. 39073. 39264. 39316. 39582. 40454. 40468. 40667. 40760. 40767. 40768. 40825. 40827. 40887. 41290. 42139. 42235. 42426. 42458. 42486. 42613. 43863. 43936. 43941. 43975. 44220. 44343. 44396. 44397. 44398. 44437. 44667. 44673. 44916. 45847. 45967. 46088. 46096. 46167. 46168. 46170. 46234. 46266. 46284. 46287. 46294. 46315. 46332. 46365. 46557. 46565. 46589. 46644. 46647. 47045. 47046. 47061. 47106. 48402. 48453. 48774.

RENEWAL FEES PAID in respect of State Patents under provision of Section 80 of the Indian Patents and Designs Act.

Indore Patents

105. 106.

Hyderabad Patents

20/1357F. 38/1358F.

Travancore Patents

CCXXXIX. CCCXL. CCCLXVI.

Mysore Patents

412/46-47. 441/47-48.

Cessation of Patents

26664. 28239. 29756. 31160. 31163. 31176. 32861. 32862. 32886. 35234. 39946. 41138. 43425. 43468. 45442. 45456. 45457. 45460. 45462. 45471. 45473. 45475. 45482. 45485. 45486. 47198.

Registration of Designs

The following designs have been registered. They are not open to inspection for a period of two years from the date of registration except as provided for in Section 50 of the Indian Patents and Designs Act.
